

DIDDLEBURY PARISH PLAN STEERING GROUP

Report to Diddlebury Parish Council May 2021

The Diddlebury Parish Plan was refreshed in 2013. Most of the action points from the plan have been implemented and the Parish Council has been appraised of progress.

Unfortunately, Covid restrictions delayed the implementation of the speed awareness and safety programme utilising the road safety equipment purchased by the Parish Council. It is hoped that this can be launched this summer.

Discussions have been held with the Parish Council to investigate a Community Led Housing Scheme aiming at providing some affordable housing within the parish. Suitable land plots need to be identified.

Following discussions with Shropshire Rural Communities the Steering Group have agreed that a further refresh of the parish plan will now be undertaken. This will again involve parish wide consultations and a communication plan is being designed to develop a programme.

Funds held by the DPPSG remain at £778

Ian Davies

Chair - Diddlebury Parish Plan Steering Group
